**Who is a podologist?** A podologist is a specialist who provides lower limb care. This includes recognizing pathological changes, treating the elderly people's feet or others needing such care. A podologist uses specialised equipment and provides a high standard of treatment. They cooperate with medical specialists and prevent foot disorders. They choose proper treatment both for the office and home care.

**PODOPHARM<sup>®</sup>** is a Polish company which was set up at the beginning of 2014. Our mission is to transfer the innovative solutions for the development of podology in Poland and across the world. A branch of science dealing with foot disorders.

**PODOPHARM PROFESSIONAL, PODOPHARM MED, PODOPHARM THERAPY and PODOPHARM LUXURY SPA** are lines of specialized products whose recipes have been developed in cooperation with podologists. All products are dermatologically tested and have received positive opinions of use in people with diabetes.

## SKINFLEX<sup>®</sup> BARRIER FACE CREAM WITH COLOSTRUM NEW!

**Indications:** For daily care of dry, atopic skin, exposed to adverse weather conditions. Supports repair processes in the epidermis after cosmetic treatments. Recommended in diabetes and psoriasis, and for pregnant women.

**Action:** The cream is based on liquid crystals technology, colostrum bovinum with 40% fat and CBD oil. The product's ingredients, such as illipe butter and tripelargonin – an emollient extracted from seeds of milk thistle – serve as an "occlusive dressing" protecting the skin from water loss. A blend of natural oils: cannabis sativa seed oil, olive oil, avocado oil and buriti oil gives the effect of instant hydration and improves skin elasticity. Aloe vera juice, gold water and jojoba oil esters soothe irritation and enhance epidermis regeneration. The product contains allergen-free fragrance composition.

**Volume:** 50 ml

## PODOFLEX<sup>®</sup> REGENERATING AND SOOTHING OINTMENT

**Indications:** For intensive care of dry, rough skin on the feet, elbows and knees. This ointment is also recommended for lips care particularly in an acne treatment with isotretinoin.

**Action:** The rich formula is based on natural fats from colostrum, beeswax, shea butter, avocado oil and sea buckthorn oil. All ingredients have been selected to give an effect of intensive regeneration and comfort, effectively reducing dry epidermis. Hypoallergenic lanolin helps to rebuild the hydro lipid skin barrier. Beta glucan, kalanchoe extract and vitamin E and F make the skin flexible and help the natural regeneration processes. Pleasant fragrance is obtained entirely by the natural mint oil.

**Volume:** 60 ml

## SKINFLEX<sup>®</sup> REGENERATING BODY SERUM

**Indications:** For the daily treatment of atopic, dry and flaking skin. **Recommended for diabetics.**

**Action:** The serum formula is based on an innovative liquid crystal technology. The combination of natural oils like: buriti oil, coconut oil, olive oil and Shea butter regenerates the skin, providing deep moisturising, softness, elasticity. The abundance of active ingredients: Aloe vera juice, allantoin, glycyrrhiza extract and vitamin F (rich in unsaturated fatty acids), ensure the ideal care of demanding skin. Due to the unique and subtle fragrance, the serum is a pleasure to use. Leaves no oily residue.

Vegan friendly

**Volume:** 200 ml

## SKINFLEX<sup>®</sup> DERMATOLOGICAL BODY SOAP

**Indications:** To wash hands, feet and body with skin prone to allergic reactions, irritation or atopic eczema. Recommended in diabetes and psoriasis.

**Action:** The soap with a unique formula contains gentle cleaning substances and innovative aXovelum<sup>®</sup> complexes. The soap owes its gentle and soothing properties to aXonnite<sup>®</sup> – the complex of chitosan with silver and copper. Apart from excellent cleaning and soothing properties, this innovative combination of ingredients is characterized by high antibacterial and antifungal efficacy. No artificial preservatives. For everyday use. For all skin types.

Vegan friendly

**Recommended use:** Apply on the skin, massage gently and rinse off.

**Volume:** 500 ml

## PODOFLEX<sup>®</sup> MYCOSTATIC TINCTURE FOR NAILS

**Indications:** An antifungal tincture for the nails of hands and feet. **Recommended for diabetics.**

**Action:** This concentrated tincture includes silver water, copper water, marshmallow extract, thyme extract, sage extract, lime extract, mandarins extract, rosemary extract, tea oil, sage oil, lavender oil, grapefruit oil, manuka oil, clove oil and cinnamon oil. All these ingredients have wide antifungal and antibacterial properties.

Vegan friendly

**Volume:** 10 ml

## PODOFLEX<sup>®</sup> FLUID FOR INGROWN TOENAILS

**Indications:** Treatment of hands and feet with the problem of ingrown nails and calluses around the nails. **Recommended for diabetics.**

**Action:** A combination of tea tree, clove, hemp, lavender and peppermint natural oils provides the product with softening, disinfecting and refreshing properties. It supports antifungal prophylaxis of the nails and soothes irritation. The product contains natural soya bean oil, rich in lecithin and vitamin E, which nourishes the skin perfectly and supports the protective lipid barrier.

Vegan friendly

**Volume:** 10 ml

## MYKOBOOSTER<sup>®</sup> SPRAY NEW!

**Indications:** Spray for hand and foot hygiene and care. The product formula is based on a scientifically proven effect of the patented aXophenone<sup>®</sup> and aXonnite<sup>®</sup> Silver complex. The active ingredients have a caring effect and eliminate the unpleasant odor which is mostly caused by skin bacteria or fungi decomposition. Alcohol- and scent-free. The innovative product formula provides long-lasting protection against bacteria and fungi proliferation. The spray can also be used with shoes, orthopedic insoles and clothes.

**Recommended use:** Spray the desired area from a distance of 15 cm and leave it to dry to ensure spray effectiveness.

**Volume:** 100 ml

## PODOPHARM<sup>®</sup> MED

### WELLNESS & SPA MAGNESIUM-POTASSIUM BATH SALTS WITH VITAMIN E AND NATURAL OILS

**Indications:** For the whole body bathing. Perfect for SPA manicure and pedicure treatments.

**Action:** Therapeutic magnesium-potassium salt together with natural orange and grapefruit oils has a relaxing, regenerating effect and restores vitality. Additionally, enriched with allantoin and vitamin E gives the effect of velvety skin. Salt does not contain detergents, does not foam, which makes it perfect for hydro massage baths.
